JOSEPH GONZALES

Joseph.Gonzales@yahoo.com/714-920-7502/Irvine, CA

SUMMARY

Experienced full-stack software developer with a strong background in languages such as C#, VB.NET, Python and Java, JQuery and Javascript. Framworks such as ASP.NET Core, MVC, and Blazor. I specializing in ERP systems such as Infor Syteline and QAD. Demonstrates a proven track record of modernizing legacy applications, building dynamic web and mobile solutions, and developing reports and dashboards using SSRS, Crystal Reports, and Power BI. Adept in SQL Server, T-SQL, and MDX for database management, analysis and performance tuning. Experience integrating APIs, Azure services, and warehouse automation systems. Skilled in delivering scalable software solutions across industries including aerospace, healthcare, logistics, and finance, while ensuring data integrity, performance, and HIPAA compliance. Holds a B.S. in Computer Information Systems from DeVry University.

TECHNICAL SKILLS

Languages/Frameworks: C#, VB.NET, ASP.NET Core, MVC, Blazor, JavaScript, jQuery, AJAX, JSON, Java, T-SQL, MDX

Databases: SQL Server, Progress DB

Tools & Platforms: SSRS, Crystal Reports, Power BI, Azure, Google APIs, Telerik, SharePoint

ERP Systems: Infor Syteline, QAD

Other: Visual Studio, Azure DevOps, Git, SOAP, Windows CE, OCR Systems

PROFESSIONAL EXPERIENCE

Cherry Aerospace – Santa Ana, CA
Application Developer | Jan 2024 – May 2025

- Customize and enhance Infor Syteline ERP forms based on business requirements.
- Develop web applications in .NET Framework and MVC Core to support Quality Testing, Finance, and Operations teams.
- Migrate legacy systems to modern Blazor .NET web applications.
- Assist in transitioning ERP systems from QAD with Progress DB to Infor Syteline Cloud.
- Design and modify reports in SSRS; develop interactive dashboards using Power BI for financial and operational analysis.

PRAM Inc. – Brea, CA
Software Developer | Jan 2019 – Oct 2023

- Developed and maintained ASP.NET Core applications; ensured compliance with HIPAA security standards.
- Provided IT support and coordinated with offshore teams for ongoing development.
- Managed SQL Server databases; created custom reports for internal teams and clients.
- Use services like ASTRA and Veracode to do an OWASP Penetration Testing for our Client Facing Web Application for Security Purposes per requirement.

JOSEPH GONZALES

Joseph.Gonzales@yahoo.com/714-920-7502/Irvine, CA

YPM – Irvine, CA
Software Developer | Jun 2014 – Oct 2018

- Migrated legacy ASP pages to VB.NET and developed new features.
- Built secure e-commerce pages integrating Authorize.net and Moneris payment systems.
- Developed dynamic WebForms with Telerik, AJAX, and jQuery; performed front-end optimizations.
- Designed SQL queries and objects and do performance tuning. Also design MDX queries for historical data reporting using SQL Server Analysis Services.
- Built marketing dashboards leveraging Google Analytics and APIs.
- Delivered full-stack web applications using ASP.NET Core, MVC 6, EF Core, Angular, and Azure services.

T. Christy Enterprises – Anaheim, CA
Consultant / Programmer | Mar 2016 – Sep 2019

- Developed C# ASP.NET applications for real-time warehouse order and shipment tracking.
- Built and maintained Crystal Reports, SSRS, and Infor Syteline T-SQL procedures.
- Create Applications around Infor Syteline ERP environment.

BrandID – Costa Mesa, CA
Software Developer | Jun 2013 – Apr 2014

- Migrated ASP pages to VB.NET using modern JavaScript, AJAX, and CSS.
- Developed warehouse workflow solutions with touch-screen web interfaces integrated with barcode scanners, printers, and weighing systems.
- Built mobile applications in VB Compact Framework for Windows CE with SOAP-based XML web services.

Cla-Val / Griswold Industries – Costa Mesa, CA
Software Developer | Apr 2012 – Jun 2013

- Reengineered legacy systems and developed new C#, VB.NET, and ASP.NET applications.
- Integrated Google Maps API for logistics planning tools.
- Designed SQL Server reports (SSRS, Crystal Reports) and maintained SharePoint portals.
- Supported Infor Syteline ERP, developed custom T-SQL scripts, and implemented warehouse barcoding systems.

Select Data – Anaheim, CA
Software Developer | Oct 2007 – Apr 2012

- Designed WPF/WCF applications for medical billing systems.
- Maintained EMR systems with security protocols for HIPAA compliance.
- Enhanced OCR solutions using Cardiff Teleform & LiquidOffice.
- Created SSRS and Crystal Reports with advanced SQL stored procedures.

VisionCore Consulting – Irvine, CA
Consultant / Programmer | Aug 2005 – Sep 2007

- Developed Java-based web scrapers for public property assessment data.
- Built custom applications in C#, ASP.NET, and SQL Server for enterprise clients.
